The goal of continuous improvement is an important part of the DuPont Legal Model. In 1996, DuPont Legal formalized the rewards and incentives process by implementing the “Challenge Awards” — monetary awards that recognize the Primary Law Firms (PLFs) and Primary Service Providers (PSPs) in its Network — for extraordinary contributions and accomplishments that have advanced the objectives of the DuPont Legal Model, including:

- Innovations in the legal work done for DuPont;
- Collaborating with other PLFs and PSPs to serve DuPont’s interests;
- Incorporating technology into the practice of law; and
- Helping maintain core programs of the Legal Model, with diversity initiatives within the individual firms being one of the key programs.
